Skills

React, Next, Angular

Typescript, Javascript, Node.js

Redux / NgRx, RxJS

AWS, Gitlab CI/CD

Git

I speak...

French : native

English : fluent

Experiences

Frontend developer
Welcome to The Jungle / June 2023 - Present

React - Typescript - GraphQL - Node.js - AWS

Development of the main website and the ATS (Applicant Tracking System) for Welcome to The Jungle.
I contributed to the redesign of numerous pages, including the jobs page, the homepage, and the member area (profile page / candidate space).

Frontend Tech Lead
Hawk / February 2017 - May 2023

React - Angular - NgRx / Redux - RxJS - AWS - Gitlab CI/CD - TS - JS

Development of a programmatic web platform (real-time automated bidding system in the advertising industry).
I had the opportunity to work on projects from scratch as well as maintain legacy projects.
In my role as Tech Lead, I collaborated with the team to establish and maintain development best practices across our projects.

Frontend developer
CGI / February 2015 - February 2017

AngularJS - Adobe AEM - Java Spring - Symfony

I worked on EDF's (French electricity company) customer portal, an intranet website for SNCF Réseau (French railway company), and developed a website for French Notaries.

Self-Employed
2012 - 2019

Angular - React - Sails.js - Wordpress

As a freelancer, I developed applications for companies such as Fruition Sciences (managing Arduinos in vineyards), Trajet Formation (association specializing in continuing education), Profilofitness (a wellness communication agency), and Musalit (a search engine for scientific documents on bananas).

Education

Polytech Montpellier
Engineering Degree in Computer Science and Management
2012 - 2015

Institute of Technology of Montpellier
Two-year university degree in Computer Science
2010 - 2012
