Computer Science Engineer
Polytech Montpellier
2012 - 2015

Technical Degree in CS
IUT Montpellier
2010 - 2012

Simon Haïoun-Viet

Senior Fullstack Developer · Product Engineer

10 years of web development, mostly with TypeScript, React and Node.js. At Crew (YC S21), I build the UI, the API and the AI features. Former tech lead (2 years at Hawk).

EXPERIENCE

Product Engineer
Mar 2025 - Present

Crew

YC-backed startup (S21), early stage. CRM for recruitment agencies. Versatile: frontend, backend, infrastructure, AI, user research.

- Owned features end-to-end, from user research and UI (Next.js 15) to API and deployment
- Shipped AI features: RAG pipeline (pgvector), notetaker with auto-summaries, CRM enrichment agents (Mastra)
- Built the Node.js/Fastify API from scratch, GCP infra with Terraform, Datadog observability

Stack : Next.js, React, TypeScript, Node.js, Fastify, PostgreSQL, pgvector

Frontend Developer
Jun 2023 - Mar 2025

Welcome to the Jungle

Leading job board in France, **2M+ visitors/month**.

- Redesigned homepage and job listing page (most viewed pages)
- Contributed to Welcome UI, the open-source design system

Stack : React, TypeScript, Node.js, GraphQL, AWS, Docker

Frontend Developer → Tech Lead
Feb 2017 - May 2023

Hawk

DSP (programmatic advertising), **6 years** including 2 as Tech Lead.

- Led the AngularJS to Angular 2+ migration of the main product
- Built React app for ad creative generation
- Developed Node.js APIs, AWS/Terraform infrastructure
- Mentored developers, ran code reviews and raised testing standards

Stack : Angular, React, TypeScript, Redux, RxJS, Node.js, AWS

Fullstack Developer
Feb 2015 - Feb 2017

CGI

Consulting for **major French companies**.

- EDF customer portal, SNCF Réseau intranet, French Notaries website

Stack : AngularJS, Java, PHP, Symfony, Adobe AEM
